HanesBrands Inc, is a socially responsible manufacturer and marketer of leading everyday basic apparel under some of the world’s strongest apparel brands in the Americas, Europe and Asia, as well as in Australia and South Africa, making us the world’s largest marketer of basic apparel.

Founded in 1901, Hanes has a long history of innovation, product excellence, and brand recognition. In fact, nearly 90 percent of U.S. households have our company’s products in them. We revolutionized Tagless T-shirts and underwear, we invented the sports bra and the stretch-cup T-shirt bra, we were the first to advertise a bra on national television (Playtex), and we are innovating with ComfortBlend and temperature-control X-Temp fabrics and seamless Smart Sizes bras.

Our Sell More and Make Acquisitions strategies are driving growth and creating value for our shareholders, consumers, retailers, employees and communities. Hanes has made more than a half dozen acquisitions, including Maidenform Brands and DBApparel in Europe. Our iconic innerwear apparel brands in the UK include Champion, Wonderbra, Shock Absorber, Playtex and Maidenform.

Based in Winston-Salem, N.C., Hanes is a member of the S&P 500 and is ranked No. 490 on the Fortune 500 list. The company has approximately 65,300 employees in more than 40 countries.

Unlike most apparel companies, Hanes primarily operates its own manufacturing facilities. More than 90 percent of the apparel units that we sell worldwide and in the United States are manufactured in our own plants or those of dedicated contractors.

We take great pride in our strong reputation for ethical business practices and the success of our Hanes for Good corporate responsibility program for workplace practices and community and environmental improvement. The company is the only apparel producer to ever be honored by the Great Place to Work Institute for its workplace practices in Central America and the Caribbean. In the United States, the company has earned the Forbes magazine Best Place to Work honor. Hanes has won U.S. Environmental Protection Agency Energy Star sustained excellence recognition for seven consecutive years. Hanes has significant goals for reducing energy use, carbon emissions and water use and publicly reports its progress each year. More information about our Hanes for Good corporate responsibility initiatives may be found at www.HanesForGood.com.

We know the importance of breast support during exercise. Since our launch, the design and development of our sports bras have been underpinned by science. We commission research from the University of Portsmouth, the world leaders in breast health, to test the performance of our products and we are continually testing and upgrading our performance fabrics to bring you cutting-edge breathable, moisture-wicking fabrics.

Research showed that wearing a Shock Absorber Run bra can reduce breast bounce by as much as 78%*, which is twice as much as a normal bra.

*University of Portsmouth (2009) Scurr et al.
Tested against no bra conditions.

As the UK’s number one sports bra brand, we have received some amazing accolades over the years and we are thrilled to share our latest achievements with you:

FACE COVERINGS

HANES
Brands Inc

Produced by our parent company HanesBrands, this face covering is made from 100% breathable 3-ply cotton which is gentler on the skin. And because they're machine washable for up to 30 washes, they're gentler on the planet too!

The UK Government advises people to wear face coverings on public transport and while shopping, to help control the spread of Covid-19.

BENEFITS

• Made of 100% natural, 3-layered-cotton, therefore gentle on the skin and comfortable to wear.
• Washable at 60°C on 30min cycle.
• Can be reused up to 30 times, therefore more economical and less harmful to the environment than single-use options.
• More ecological than one-way face coverings as it is less bio-hazardous if washed before disposing, and as a result, more cost effective too (saves the wearer money).

One pack contains 5 face coverings.

Comfortable for daily wear when a PPE/Medical mask is not required.

This covering is not intended as personal protective equipment and is not to be used to protect users. This covering is not intended to be used in a surgical setting. Not certified. Not medically tested.
